DETAILED ACTION

Allowable Subject Matter

Claims 3-18 are allowed.

The following is an examiner's statement of reasons for allowance: The examiner has reviewed the prior art in light of applicant's claimed invention and finds that the claims define over the prior art. The prior art does not disclose or suggest inter alia the limitations "...Limiter optics for an ignition feedback regenerative free electron laser amplifier having a pulsed output beam of predetermined duration from an undulator comprising: A. A pickoff member using a convex pickoff mirror adapted to direct a portion of the output of said pulsed output beam as a pickoff beam and which expands said pickoff beam to a predetermined size; and B. a limiter assembly adapted to bring said directed pickoff beam to a focus at a selected point within said undulator at a selected time where said limiter assembly further comprises: (i) an expander mirror adapted to modify spatial and temporal characteristics of said portion of the output picked off by said pickoff means; (ii) a first focusing optics adapted to focusing said modified directed pickoff beam to a focal point; (iii) a limiter plate movably placed near said focal point so as to allow said focused modified directed pickoff beam to pass through said limiter plate; (iv) adjusting member operably connected to said limiter

plate and adapted to move it closer to or farther from said focal point as desired; and (v) a second focusing optics placed after said pickoff beam has passed through said limiter plate and adapted to refocus said focused directed pickoff beam to a predetermined point in said ignition feedback regenerative free electron laser amplifier.”

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
